Features

Expansive mountain views
Level building area
McIntyre Creek on the property

Details

Lot Size: 1.66 acres
Vacant lot

Looking for a semi-off-grid property with lots of privacy? This 1.66 acre lot has a great building area and mountain views in nearly every direction! Located just below Cedar Slope on a shared private driveway, McIntyre Creek runs on the edge of the property so you can hear and see the creek from the newly graded building area. The Castle Fire burned through this area but the upside is there is now close to a 360 degree view of the mountains. The property is adjacent to the national forest so it provides lots of privacy and a mountain feel. There is access to water from McIntyre Creek (currently being reestablished from fire damage) and a power pole nearby but you also have the option of going off grid if you prefer. If you are looking to build on the mountain, this lot could be the one for you -- [call today!](#)
